A Strategic Plan for Creating the Roadmap for English Learner Success 2013 - 2018
Education either functions as an instrument which is used to facilitate integration of the younger generation into the logic of the present system and bring about conformity or it becomes the practice of freedom, the means by which men and women deal critically and creatively with reality and discover how to participate in the transformation of their world.

Paulo Freire

You do not become a ‘dissident’ just because you decide one day to take up this most unusual career. You are thrown into it by your personal sense of responsibility, combined with a complex set of external circumstances. You are cast out of the existing structures and placed in a position of conflict with them. It begins as an attempt to do your work well, and ends with being branded an enemy of society.

Vaclav Havel
June 2013

Dear Colleagues:

This is a remarkable moment in CABE history. No longer a novice organization, we can rely on a long history of advocacy, professionalism, and struggle for social justice and equity. Now, we have an unprecedented opportunity to reposition ourselves as the go-to experts in English Learner education. This strategic plan introduces the CABE COMPASS FOR SUCCESS. Through the COMPASS, our new leadership strategy for dramatically improving educational outcomes for English Learners, we intend to make true a visionary future for our organization and a powerful vision of English Learner success, which forms one of the CABE Essentials.

In order to achieve our focused vision for the future and outcomes and the Board’s new goals as effectively as possible, we need to ensure that all of our other organizational functions and decision-making are aligned to optimally support this educational outcome. This COMPASS is the vehicle that will allow us to operationalize that intent of achieving a sustainable system of high performing 21st century schools and districts for all California English Learners.

We have taken a clear stand: Our vision for English Learner success and our leadership strategy will be the drivers of our decision-making and improvement efforts. The CABE COMPASS is our educational solvency plan, which we will use in concert with our fiscal solvency plan to enact our organizational values, priorities, and initiatives. The CABE COMPASS represents an explicit investment in values-driven, principles-based school reform for English Learner success.

Our COMPASS FOR SUCCESS establishes four cardinal points of action: Envisioning Success, Designing for Success, Engaging Our Community for Success, and Accountability for Success. As part of this moral imperative and guided by a commitment to equity, high expectations, and accountability, we resolve to provide a safe and healthy learning environment for our children and youth, prepare all English Learners to be college, career, and 21st century ready, ensure English Learner achievement drives our decision-making, and create an environment that promotes an actively engaged and supportive community.

We are eager to move from mere words to concerted action and look forward to inspiring our members and partners to join us in this worthy endeavor.

Respectfully,
Francisca Sánchez
CABE President

### Taking Action for Success

The COMPASS Claims/Goals

Envisioning Success Action Plan

- 1.1 Defining Success through the CABE Essentials
- 1.2 Communication Tools
- 1.3 Practices & Resources
- 1.4 Professional Development & Public Information Strategy

Designing for Success Action Plan

- 2.1 Professional Development Framework
- 2.2 Professional Development
- 2.3 Designing for Success Website
- 2.4 CABE As Support Provider
- 2.5 School/District Success Maps
- 2.6 Innovation Cadres

Engaging Our Community for Success Action Plan

- 3.1 Family/Community Engagement
- 3.2 Making Learning Visible
- 3.3 Partnerships
- 3.4 Advocacy
- 3.5 Membership

Accountability for Success Action Plan

- 4.1 Multilingual Excellence
- 4.2 Data Dashboard
- 4.3 Chapter Engagement
- 4.4 Certification
- 4.5 Staff Engagement & Leadership
- 4.6 Budget & Fund Development Plan

### Notes & Reflections

Note Pages

- 118
- 120
In September 2012, the CABE Board met to reflect on the past year and explore implications and opportunities for the coming year. As part of this meeting, the Board considered the development of a new strategic plan organized around the metaphor of a compass. This was an opportunity for the Board to build better understanding of CABE’s vision, values, principles, priorities, and initiatives and the Board’s role in widely supporting and communicating these, as well as to develop and build consensus on the common elements of the CABE COMPASS.

Integral to this process was a recognition that we are entering a new era in California education. Common core standards, new ELD standards, and new assessments, with their focus on higher order thinking, are fast approaching. Districts and schools are struggling more than ever with how to educate English Learners. The 21st century brings with it increasingly diverse, complex, and global requirements. And CABE has new executive and board leadership. Together, these forces bring us a unique opportunity to rethink CABE’s core identity and mission and to reposition CABE as the premier source for expertise on English Learner education in a 21st century context.

During the meeting, the Board explored a bold and innovative vision for CABE’s future. The Board spent some time brainstorming and organizing the work and actions needed to successfully implement the four cardinal points of the proposed CABE COMPASS. Board members worked in groups to create a workshop board for each of the four COMPASS cardinal points, and then in groups, created a claims or goal statement for each category of work on the workshop boards. These claims statements were then used to develop first drafts of action plans.

In developing these draft plans, the Board considered the actions necessary to make each claims statement true, then specified the steps to be carried out for each action, when the action needed to be completed, who should have primary responsibility for ensuring the action was carried out, what resources would be needed to get the work done, and the evidence we would accept that the action had been successfully completed and to the level of quality we desired.

The September meeting created a “space” for the Board to “try on” some of these ideas. Over the remainder of the year, the Board has continued to reflect on the notion of a CABE COMPASS, determining how well new ideas and proposals fit, what current work and initiatives need to be nurtured and safe-guarded, what needs to be tailored and customized, and how to showcase CABE’s new priorities.
Between September and February, the draft action plans were then refined and reviewed by CABE staff and the executive team and finalized for the Board’s review and approval in February when the Board received a summary page outlining all of their claims statements, and the actions that went along with each claims statement.

At the April meeting, the Board reviewed and approved the actual action plans that included more details. In June, the Board adopted the COMPASS as CABE’s new strategic plan. The final document, which follows on these pages, includes a narrative and the action plans, and incorporates current work that supports the COMPASS.
Our Current State
Our civilization, so addicted to knowledge, has fled from wisdom. Knowledge is very, very powerful. If it is not tempered and contoured by greater visions, like justice, compassion, beauty, grace and thinking of the next generation and seven generations to come -- then indeed, it is dangerous. Unfortunately, many of our educational systems in the West are still very dangerous places.

Matthew Fox
The California Association for Bilingual Education is a non-profit professional development and advocacy organization incorporated in 1976 to promote bilingual education and quality educational experiences for all students in California. CABE has 5,000 members with over 60 chapters/affiliates, all working to promote equity and student achievement for students with diverse cultural, racial, and linguistic backgrounds. CABE recognizes and honors the fact that we live in a rich multicultural, global society and that respect for diversity makes us a stronger state and nation.

We firmly believe that using children’s home language and supporting their acquisition of English accelerates and sustains their academic progress while ensuring that English Learners attain high standards as they prepare to be 21st century citizens. As an organization, we support ongoing research, planning, and learning to guide our social movement for equitable instructional programs and practices. We work with other partners to influence policy and program development through the advocacy and legislative process.

Our Affiliates

2-Way CABE: An organization dedicated to advocating for and assisting with the planning and implementation of quality K-12 two-way bilingual immersion programs that provide all students the opportunity to become fully bilingual.

CAPBE: California Association of Parents for Bilingual Education. This affiliate works to inform parents on educational programs and practices that benefit their children academically.

CABTE: California Association of Bilingual Teacher Educators. This is a newly formed affiliate whose members, professors at universities across the state, prepare bilingual teachers to work with diverse background students, especially English Learners.

CASBE: California Association of Secondary Bilingual Education. This affiliate works to improve educational attainment of secondary English Learners who come to our schools with little or no educational backgrounds in their home countries as well as those that have a solid educational foundation, but lack the English skills to fully participate in the educational program.
CABE is a non-profit organization that is directed by a 14-member board of directors. With 15 full time staff and four part time staff, the organization is small in size yet big on outreach and impact. CABE members represent teachers, administrators, parents, and community members throughout the state. Membership in CABE provides benefits such as access to scholarships, discounted rates on conferences and materials, access to publications and research, and membership in a united and connected learning community of professionals and community members. CABE’s membership is divided between five regions in the state of California, and members may also select to be members of one of four CABE Affiliates—(2Way CABE, CABTE, CASBE and CAPBE).

An essential aspect of CABE’s assets includes the large network of English Learner experts represented by CABE’s membership and partners. From internationally renown researchers, to nationally recognized practitioners and dedicated local advocates, these experts are a valuable resource in our journey to creating the conditions for English Learner success in our schools and communities. Through its professional development services, CABE has proven itself as a leader in English Learners education. Its professional development program includes 9 regional conferences, an annual statewide conference designed for educators, parents, and other community members, and direct services and consulting with schools and districts.

CABE also continues to demonstrate consistent leadership in sponsoring and supporting a wide range of English Learner-focused publications to support teachers, administrators, and policy makers. These publications include a quarterly journal, professional books on pedagogy, practice, and research, position papers, reports, legislative analyses, and other such documents.

Through its Project 2INSPIRE, CABE also provides high quality education, resources, and professional and leadership development to parents with an emphasis on outreach and services to parents of most disadvantaged students, including parents of low income, minority, and limited English proficient students.

Finally, a huge asset for CABE is its relationships and partnerships, and this new strategic plan relies heavily on expanding and strengthening these, which become essential in helping CABE achieve its vision and goals. CABE’s community connections and partnerships are key to ensuring its success, now and certainly in the future.
CABE’s current partnerships include relationships and connections with:

- National Council of La Raza (NCLR)
- Parent/Teacher Association (PTA)
- California Teachers’ Association (CTA)
- Computer Using Educators (CUE)
- California Latino School Board Association (CLSBA)
- California Department of Education (CDE)
- Confucius Institute
- Center for Equity for English Learners (CEEL)
- Californians Together
- Alliance for a Better Community (ABC)
- Families First

CABE has longstanding partnerships with many county offices of education, and through grant programs, with foundations such as JP Morgan Chase, Sobrato, and the California Community Foundation.

CABE seeks strong partnerships with state and federal government offices, professional organizations such as the California County Superintendents Educational Services Association (CCSESA), the Association of California School Administrators (ACSA), and the Association of Curriculum & Staff Development (ACSD), as well as with colleges and universities and their schools of education, and with the large growing number of non-profit organizations that focus on English Learners and other culturally and linguistically diverse communities.
Today

Our Opportunities

CABE has a rich history and legacy in being the leader in advocacy and professional development for educators of English Learners for over 38 years. Continually challenged to meet the current needs of our students and educational community, CABE has the opportunity to provide strong support and pathways to ensure success in the 21st Century. Through the annual and regional conference structure, CABE has reached literally tens of thousands of educators each year. CABE has recently expanded its range of services (and revenue sources) to include a dynamic parent leadership and training program called Project 2INSPIRE, which was born out of the work established through its Parent Information Resource Center (PIRC) grants. Project 2INSPIRE continues to grow and serve our community through contract services to districts and schools as well as via a recently obtained i3 grant which permits CABE to conduct a five-year research study on the impact of parent leadership and engagement on student academic growth.

CABE has also recently launched CABE PDS (Professional Development Services), which has the goal of providing direct services to administrators, teachers, publishers, and other educators through direct training, coaching, and consulting. With the growing needs of our students, families, and educational professionals, CABE strives to maintain relevant, inspiring, and impactful services and professional development.

All of this positions CABE to become the go-to professional organization on English Learner education, especially given the current context where districts struggle to educate English Learners well in an increasingly demanding academic and societal context. CABE has the opportunity to dramatically extend its sphere of influence and impact and to develop a suite of services that schools, districts, and communities desperately need in order to accomplish what is being asked of them in this new 21st century, common core-focused context.

Being able to respond powerfully to this opportunity requires that CABE engage in strategic development efforts to expand and deepen its own capacity. This is the aim of the new strategic plan.
As a non-profit organization, CABE faces the challenge of resources, sufficient revenue sources, adequate number of staff, and regular access to its membership, which is spread throughout the state. As part of the California educational community, CABE faces similar reduced budgets while attempting to do more work more effectively with diminishing resources. While once a very strong conference provider, CABE has seen its attendance drop from a peak of 10,000 in 1997 to approximately 3,500 in this past year (2013).

CABE is challenged to identify ways to serve the educational community who serves ELs through other means and programs. The needs of our English Learners and their families, and the educators who serve them, are huge and often overwhelming. In such a context, everything is a priority, and it often becomes challenging to work from an assets orientation and focus at least as much on the strengths of our students, educators, and community.

CABE’s board is a volunteer board. Most board members are full-time employees of other organizations, and so their service to CABE often impinges on family and personal time. CABE staff and board members tend to work long and hard hours, which may reap benefit for the organization, but also impacts personal and family time and health, which ultimately can have a negative impact on organizational success. CABE needs to maintain a focus of balance, effective systems, and team collaboration to remain strong and viable.

Given the new direction represented by this strategic plan, CABE will also need to access a variety of information resources, such as:

- Surveys/needs assessments of professional development needs;
- Current trends in curriculum and assessments;
- Student data, particularly for ELs and students involved in biliteracy programs;
- Up to date marketing and business trends in the non-profit educational sector;
- School budget information;
- Up to date state and national legislative trends and priorities;
- Key global research on language, multiculturalism, arts innovations, technology integration, and 21st century learning;
- Student voice and perspective.

It will be a challenge to identify the necessary strategies for accessing these information sets and establishing systems to ensure CABE’s work is guided by what can be learned from the new data.
Our CAPE Essentials
Every time you stop a school, you will have to build a jail.
What you gain at one end you lose at the other.
It’s like feeding a dog on his own tail.
It won’t fatten the dog.

Mark Twain
We believe that English Learner policy should begin with values that are formed into a vision of how our schools should be and with principles that explain how our values get enacted. Data and research then inform the action and plans to carry out the policy. That is a key role that CABE intends to play—-to enact a values-driven principles-based reform agenda for English Learner success.

CABE relies on five key values to guide our English Learner reform agenda. These values represent our first Essential:

1. **A SUPPORT AND SERVICE ORIENTATION**, where the highest priority of CABE’s leaders is to encourage, support, and enable everyone – staff, members, students, community -- to unfold their full potential and abilities.

2. **RECIPROCAL ACCOUNTABILITY**, that is a covenant between CABE and the organizations, English Learners, and families it serves. It’s a promise, and “keeping our promises” (being accountable) means stating our said commitments and following through with those commitments. In this sense, accountability is a shared and reciprocal process.

3. **ASSETS-BASED APPROACHES THAT ARE CULTURALLY AND LINGUISTICALLY RESPONSIVE** and that facilitate and support the achievement of all students. Rather than starting from a base of deficits, we work diligently to uncover and make visible the strengths that students and their families bring into the classroom and the school community.

4. **EQUITY** means having a deep understanding of the communities we serve, so we may better personalize our work for English Learners, families, schools, and districts. Equity also means redistributing resources towards students and schools traditionally underserved by school systems.

5. **LINGUISTIC HUMAN RIGHTS** is at the heart of our core values. It integrates a transformative set of commitments regarding language learning, including asserting the legitimacy of students’ native languages and dialects, protecting rights to language, and systemically using students’ languages, cultures, experiences, and skills.
Without a powerful vision and a clear mission, organizations can go astray and lose their way. Our vision and mission represent CABE’s second essential and paint the picture of our destination.

Our Vision
Biliteracy, educational equity, and 21st century success for all.

Our Mission
To support this central vision of biliteracy, educational equity, and 21st century success for all students, we will implement priorities, initiatives, and services designed to dramatically increase California’s capacity to create 21st century learning environments of high intellectual performance for all English Learners and to graduate all English Learners college, career, and 21st century ready and prepared to live their lives to their full potential.

As the premier organization focused on the education of California’s English Learners, we will judge ourselves as successful to the degree that we assist our districts, schools, and communities in achieving this 21st century vision of student success for every group of English Learners they serve.
A good theory of action helps ensure an accurate translation of intentions into actions that yield the desired results so that there is a tight match between our intentions, our actions, and our results. CABE’s theory of action, the third CABE Essential, states that:

IF WE COMMIT TO A VISION OF ENGLISH LEARNER SUCCESS that has at its center engaged and achieving English Learners prepared for college, career, and 21st century success . . .

AND IF WE ARE RELENTLESS IN CLARIFYING AND SUPPORTING CLASSROOM LEADERSHIP focused on improving the quality of classroom instruction and interactions for English Learners . . .

AND IF WE BUILD AND SUPPORT SCHOOL LEADERSHIP that provides instructional clarity and coherence for English Learners through effective principals, leaders, and teachers, caring staff, and engaged families and community . . .

AND IF WE ORGANIZE DISTRICT LEADERSHIP around our core values and instructional priorities to most effectively provide the resources, support, and accountability our schools need to do what we are asking them to do for English Learners . . .

THEN WE WILL BECOME A STATE OF HIGHLY EFFECTIVE AND EQUITABLE DISTRICTS AND SCHOOLS that fully engage all English Learners to succeed in school and beyond.
To support its vision of English Learner success, and forming its fourth Essential, CABE proposes a set of values-driven operational or design principles as well as a set of research-informed core programmatic principles. These principles will serve as guidelines for CABE’s work with districts, schools, communities, and partner organizations.

**Design Principles**
CABE’s design or operational principles define how we design and implement our priorities and initiatives, how we make decisions, and how we deal with negative patterns of thinking and doing that surface as barriers and obstacles.

**Student-Centric Orientation**
Every action we take is driven by our mission to serve English Learners. At every level and in every instance, our decisions are based on the expectation that they will move us closer to our vision of English Learner success.

**Transparency**
The stakeholders most impacted by decisions (including students and families) are involved from the beginning. We are ultimately accountable to them.

**Alignment**
Resource allocations (people, time, and money) reflect the goals and priorities of our work.

**Service**
The boundaries we set liberate rather than suffocate. Our decisions about our systems and structures make it easier rather than harder for people to get work done. Our procedures and protocols use the fewest and most-connected steps necessary to achieve their purpose.

**Empowerment**
We are empowered to use own best judgment. We are authorized to act independently in the best interests of our clients, as guided by our values, vision/mission, and theory of action.

**Risk-Taking**
Learning requires taking risks. Mistakes are inevitable, but if we are focused and engaged, we can identify and avoid them in the future. As leaders, we are expected to show up and participate.
This transformational work is about systemic change and alignment, not incremental tweaking.

We must be active learners even as we seek to educate. We will adjust our strategies and tactics as new data become available, constantly learning from our mistakes.

Distilled from the research on effective approaches for high intellectual performance for English Learner populations, school change and reform, and systems change, we also propose a set of core principles as essential foundations for school reform that results in sustainable English Learner success, as defined in our vision of student success.

Create a safe, affirming, and enriched environment for participatory and inclusive learning for every group of English Learners.

Use culturally and linguistically responsive pedagogy that maximizes learning, actively accesses and develops student voice, and provides opportunities for leadership for every group of English Learners.

Engage every group of English Learners in well-articulated and age-appropriate curriculum that purposefully builds a full range of language, literacy, and communication skills, including minimally, bilingualism, biliteracy, and multiculturalism. This curriculum is cognitively complex, coherent, relevant, and challenging, and by design, develops technological fluency and the critical/creative capacities in every English Learner.

Provide and utilize a broad array of high quality standards-aligned instructional resources in the home language and in English that provide each group of English Learners with equitable access to core curriculum and academic language in the classroom, school, and community.
Our Principles

Valid & Comprehensive Assessment
Build and implement valid and comprehensive assessment systems designed to promote reflective practice and data-informed planning in order to improve academic, linguistic, and sociocultural outcomes for each specific group of English Learners.

High Quality Professional Preparation & Support
Provide coherent, comprehensive, and ongoing professional preparation and support programs based on well-defined standards of practice for English Learners. These programs are designed to create professional learning communities of administrators, teachers, and other staff to implement a powerful vision of excellent teaching for each group of English Learners.

Powerful Family/Community Engagement
Implement strong family and community engagement programs that build leadership capacity and that value and draw upon community funds of knowledge to inform, support, and enhance teaching and learning for each specific group of English Learners.

Advocacy-Oriented Administrative/Leadership Systems
Provide advocacy-oriented administration and leadership that institute system-wide mechanisms to focus all stakeholders on the diverse needs and assets of each specific group of English Learners. These administrative and leadership systems structure, organize, coordinate, and integrate programs and services to respond systemically to the needs and strengths of each group of English Learners.
Our Strategic Goals

CABE's strategic goals are our fifth Essential:

- Dramatically improve English Learner engagement and achievement.
- Create and sustain 21st century learning environments of high intellectual performance across the curriculum and in all areas needed for 21st century success for English Learners, including the development of high levels of multilingual competency.
- Provide strategic direction and support to district administrators, principals, teachers, and sites focused on improving the quality of classroom instruction and interaction in every classroom in every school in California, on behalf of English Learners and their families.
- Create and support safe, affirming, and enriched school environments for participatory, restorative, and inclusive learning and interaction for English Learners.
- Engage English Learner families and communities in powerful learning and collaboration.
CABE’s final Essential, our Instructional Priorities, is reflected in two key questions:

1. How do we create and sustain 21st century learning environments of high intellectual performance for English Learners? This question requires that we understand and operationalize three embedded concepts:
   - What do we mean by “learning environments”?
   - What do we mean by “21st century” learning?
   - What do we mean by “high intellectual performance”?

Additional detail describing what we mean by these three concepts in the context of English Learner education is provided on pages 26-29 of this document.

2. In English Learner contexts, how do we make learning (and the teaching that leads to powerful learning) public and visible to our entire California community? We know that currently teaching and learning are basically private enterprises that happen inside students’ heads and behind the closed doors of the classroom. When we have schools where the closed doors of our classrooms are thrown open and the silenced voices of our English Learners are joyful testimonies of their continuous learning, then we will have started our journey to making learning visible. The end of that journey is a space where English Learners, teachers, administrators, staff, and parents:
   - Know what powerful teaching and learning looks like and see it exhibited regularly in and out of school.
   - Know what to do to produce consistently high quality learning results.
   - Hold each other responsible for high quality teaching and learning.
   - Expect that work is not done until it meets publicly agreed-upon standards of quality.
   - Work together to create environments of high intellectual performance throughout the school and community.
By learning environments we mean culturally and linguistically responsive learning spaces in our classrooms, our schools, and our community where every English Learner is considered high status and that positively develop and affirm each English Learner’s cultural/linguistic identity and self-esteem, self-motivation and learner autonomy, and social skills and competency. In these spaces, we intentionally plan and structure instruction and interactions to develop a sense of community, self-determination, trust, and democracy.

In these learning environments, we establish strong relationships with English Learners by being personable, caring, trustworthy, and having an interest and understanding of the lives of our students. We show respect for English Learners’ experiences, languages, and cultures by honoring their voice and creating environments where student voice permeates the classroom instruction, and decisions for instruction are based on English Learner needs. We communicate responsibility by creating safe learning environments, modeling high expectations for learning, connecting instruction with English Learners’ learning needs and making a link with their prior knowledge, providing multiple ways in which English Learners can learn and demonstrate knowledge, and clearly articulating the curriculum’s “usefulness” for today and the future. We use English Learners’ lives outside the classroom as a means of engaging them more deeply in learning that has strong relevance for them. In particular, we find ways to help our English Learners see future possibilities for people who look and sound like them, who come from similar backgrounds and experiences.

21st Century Learning

1. Academic Preparation

21st century academic preparation differs from the traditional academics. Instead, it focuses on a full curriculum that includes all the different disciplines, including the arts. English Learners need opportunities to show what they’ve learned through advanced-level applications of their knowledge. And very importantly, they need to learn HOW to learn because the truth is most of the actual content they get in school will be obsolete by the time they finish college.

2. College and Career Readiness

Being college and career ready means that English Learners have real choices and options – to go to university or not, to pursue this career or that, not because of their zip code or the
language they speak but because we prepared them for that. And whether they enter the university or the workforce when they graduate, they will have the cognitive and metacognitive tools to think critically and creatively and to keep on learning throughout their lives.

3. Mastery of Advanced Literacies and 3M Skills (Multimedia, Multilingual, and Multicultural)
   In today’s world, being bilingually proficient at near native-speaker like levels is the barest minimum. Other countries are routinely preparing their young people as high level multilinguals --- all of whom can speak English at professional and technical levels ---, and when the whole world knows English, knowing ONLY English is no longer a competitive advantage. Our English Learners will be required to interact positively with people from all cultures and walks of life. They’ll need to be multiculturally competent. And they’ll need to be able to learn, create, and use multiple media, technologies, and literacies at high levels of competency.

4. Innovation, Creativity, and Solution Seeking Competencies
   Our English Learners’ success will depend in significant part on having the discipline, skill, and daring to be innovators and creators, to seek and find solutions to problems that haven’t even been invented yet. The arts provide the space to acquire these skills, capacities, and dispositions in a coherent, comprehensive, and disciplined way that is difficult to imagine other disciplines being able to do. Integrating rigorous arts instruction with other disciplines is vital: we know, for example, that innovation has always happened at the intersection of disciplines.

5. Social, Civic, and Environmental Responsibility
   English Learners also need to be prepared to apply their classroom learning to real world social, civic, and environmental issues which are extremely complex and challenging. They will be the ones making the decisions that determine our quality of life, and in a global world, decisions made in one part of the world will have impact across the world.

6. Technological Fluency
   Technological fluency is often what comes to mind when we talk about 21st century preparedness. But this area isn’t just about using tools --- it’s about a new way of conceptualizing communication, interaction, integration, and intelligence.
7. **Strength of Body, Mind, and Character**

Living in a global village requires that every member develop the strength of body, mind, and character to contribute in positive ways to a healthy community. And we know from a body of emerging research the impact of healthy bodies on powerful minds.

**High Intellectual Performance**

High Intellectual Performance is an overarching concept that encompasses seven essential pedagogical practices. We support high intellectual performance when we deploy these pedagogical practices, which we intend to support as core CABE practices that should be in evidence in every classroom in California where English Learners are present:

1. **Identify and build on student strengths.**
   Identifying and building on student strengths means acknowledging that English Learners don’t come to us as blank slates or as an accumulation of deficiencies. They know things, they’ve had experiences, they have cultures and languages — all of these are powerful assets that we should build on. We need to acknowledge these assets and show students that we believe in them and in their intellectual and academic capacity.

2. **Establish powerful relationships that nurture success.**
   Establishing powerful relationships that nurture success requires that teachers know their English Learners and their communities and that English Learners see them as their advocates and supporters. Students will look for teacher behaviors that they see as evidence that the teacher respects them. We know that relationships are everything. And we know that many students will refuse to learn from teachers who they don’t believe care about them or have their best interests at heart.

3. **Elicit high intellectual performance.**
   Teachers can elicit high intellectual behavior by making sure the curriculum is well-articulated, relevant, and rich. They intentionally invite English Learners into cognitively complex work and inquiries in ways that allow students’ curiosities to be engaged and for students to experience a series of connected successes. They take advantage of what we know about how the brain works best to structure brain-compatible experiences for their students. Most
importantly, they carefully plan activities that prime or prepare English Learners for cognitively demanding work, they use processes that allow English Learners to engage in meaningful ways with the content, and they organize activities designed to help English Learners retain and retrieve what they learn.

4. **Engage students actively in the learning.**
We can engage English Learners actively in the learning process by focusing their attention on challenging thinking and requiring that English Learners use oral and written language to communicate and concretize their thinking. We can connect the learning to English Learners’ real lives and engage them in creating authentic products that add value to the students, their families, their schools, and their communities.

5. **Create environments of enrichment not remediation.**
The research is clear on the power of creating environments of enrichment rather than remediation, which teachers can do by treating English Learners as gifted and organizing learning experiences that allow them to behave and produce as gifted students.

6. **Situate learning in the lives of students.**
Critical to high intellectual performance is situating learning in the lives of English Learners by using culturally and linguistically responsive strategies that validate English Learners as knowers and that use English Learners’ lives, experiences, and current knowledge as the starting point for learning. When teachers do this, they communicate to English Learners that their experiences count, that who they are counts.

7. **Address the prerequisites for learning.**
Finally, we need to address the prerequisites for learning by making sure that English Learners have what they need to be successful learners and students. This includes the resources we provide to English Learners, as well as explicitly teaching to bridge gaps in English Learners’ academic and linguistic preparation. It means working with families in ways that expand their capacity to contribute to their children’s school success.

*Pedagogical Practices Adapted from Yvette Jackson, Pedagogy of Confidence*
The knowledge and skills to educate all children already exist. Because we have lived in a historically oppressive society, educational issues tend to be framed as technical issues, which denies their political origin and meaning... There are no pedagogical barriers to teaching and learning when willing people are prepared and made available to children. If we embrace a will to excellence, we can deeply restructure education in ways that will enable teachers to release the full potential of all our children.

Asa G. Hilliard

The Maroon Within Us
Engaging Our Community for Success

Accountability for Success
Our primary organizational focus, represented by the CABE COMPASS, is to dramatically increase California’s capacity to create 21st century learning environments of high intellectual performance for all English Learners and to graduate all English Learners college, career, and 21st century ready and prepared to live their lives to their full potential.

Our foundation for achieving this focus is one of values-driven, principles-based reform.
Leadership Strategy

Leadership Strategy: CABE COMPASS

We have designed a set of strategies, aligned to our four COMPASS cardinal points, for implementing this reform:

- Envisioning Success
- Designing for Success
- Engaging Our Community for Success
- Accountability for Success

ENVISIONING SUCCESS

Defining Success through the CABE Essentials:
- Values
- Vision/Mission
- Theory of Action
- Principles
- Strategic Goals
- Instructional Priorities
- Communication Tools
- Practices & Resources
- Professional Development & Public Information Strategy

DESIGNING FOR SUCCESS

School/District Success Maps

Budget & Fund Development

PRINCIPLES BASED REFORM
- Assets Approaches That Are Culturally & Linguistically Linguistic Human Rights
The first COMPASS cardinal point is Envisioning Success:

- CABE Essentials
- Communication Tools
- Practices & Resources
- Professional Development & Public Information Strategy

Envisioning Success sets the groundwork for the remaining three cardinal points. Most importantly, Envisioning Success holds the CABE Essentials, which are the heart of our work at CABE. They support our work as CABE leadership and members, and they pump CABE’s life blood that sustains our English Learners across the state.

What is CABE’s identity? How do we know what CABE stands for? We all have our own answers to these key questions, but to be sure that we have common answers, we need to be clear and explicit about CABE’s essentials: its values, vision for the future/mission, theory of action, principles, strategic goals and objectives, and instructional priorities. Each of these is discussed in detail in the section entitled Our CABE Essentials in this document.

In addition to our CABE Essentials, Envisioning Success also includes initiatives that will help us promote and communicate our COMPASS and our Essentials, including creating resources that help schools and districts put powerful practices in place.
The second COMPASS cardinal point, Designing for Success, is about how we create the sorts of educational environments and learning spaces that will ensure we realize our big vision of English Learner success.

- Professional Development Framework
- Professional Development
- Designing Success Website
- CABE As Support Provider
- School/District Success Maps
- Innovation Cadres

Some of the features of this cardinal point include a system of differentiated supports that CABE could provide to schools and districts, where together we co-design what needs to happen.

For example, CABE can be a leader in helping schools and districts design success plans that specify the instructional innovations and integrated services they will provide to English Learners and that clarify the English Learner pathways that they will implement so that from PreK through graduation, English Learners have access to a comprehensive, coordinated, articulated instructional program that results in their linguistic, academic, and 21st century success.

It could include such things as innovation cadres, a safe space to explore in a community of peers new ideas that will push us to the edge of our competency as an organization. Innovation cadres is a protocol for incubating and chronicling innovations, and ultimately, making an informed determination about what it will take to scale up the innovation and whether the benefit in terms of student engagement, achievement, and 21st century success is worth the cost.

And, of course, human capital development, a CABE forté, is a key aspect of designing for success. In fact, this forms one of CABE’s core programmatic principles, charging us with providing “coherent, comprehensive, and ongoing professional preparation and support programs based on well-defined standards of practice. These programs are designed to create professional learning communities of administrators, teachers, and other staff to implement a powerful vision of excellent teaching for each group of English Learners we serve.

This principle recognizes that “ensuring student success requires a new kind of teaching, conducted by teachers who understand learning and pedagogy, who can respond to the needs of
their students and the demands of their disciplines, and who can develop strong connections between students' experiences and the goals of the curriculum. Efforts to improve student achievement can succeed only by building the capacity of teachers to improve their instructional practice and the capacity of school systems to promote teacher learning.” (Professional Learning in the Learning Profession: A Status Report on Teacher Development in the United States and Abroad)

This can only happen if we use a common professional development framework to develop the highest quality teachers and administrators who are prepared to engage high achieving and joyful 21st century English Learners. The research is indisputable. The surest way to improve English Learner outcomes and ensure the kind of learning environment described in the CABE COMPASS is to staff every school and classroom with expert, high quality teachers and administrators knowledgeable about powerful English Learner practices and committed to English Learners’ 21st century success.
The third COMPASS cardinal point is engaging our communities for success:
- Family/Community Engagement
- Making Learning Visible
- Partnerships
- Advocacy
- Membership

Some potential features include family and community engagement, our connections with various governmental, political, civic, service, university, and professional organizations and entities, our advocacy work at multiple levels, and our efforts to support and expand our membership.

CABE has recently received a federal i3 grant to expand its PROJECT 2INSPIRE work, developing expertise and leadership among parents and community members so they are more informed and effective advocates for English Learners. This is just one example of our work in family and community engagement.

Engaging our communities also means that we need to make them more knowledgeable about the nature of learning. We need to make learning (and the teaching that leads to powerful learning) public and visible to our entire California community. We can create structures, protocols, and processes that throw open the closed doors of our classrooms and transform the silenced voices of our English Learners into joyful testimonies of their continuous learning. CABE will be launching initiatives to do just this so that our entire community --English Learners, educators, and parents--:
- Know what powerful teaching and learning looks like and see it exhibited regularly in and out of school.
- Know what to do to produce consistently high quality learning results.
- Hold each other responsible for high quality teaching and learning.
- Expect that work is not done until it meets publicly agreed-upon standards of quality.
- Work together to create environments of high intellectual performance throughout the school and community.

We continue to expand our work with the California Department of Education, particularly with regard to the new State Common Core Standards, ELD Standards, and new assessments. We are
working directly with a number of universities and are expanding those partnerships as well as our partnerships with professional organizations such as the Confucius Institute. Our advocacy work is deepening, as we collaborate with our allies on behalf of English Learners, and we are strengthening our membership services in order to create more opportunities for members to serve English Learners well.
The final and fourth COMPASS cardinal point is accountability for success. While CABE currently has the seals of biliteracy and excellence in place, this cardinal point will be acquiring new focus and direction.

- Multilingual Excellence
- Data Dashboard
- Chapter Engagement
- Certification
- Staff Engagement & Leadership Development
- Budget & Fund Development

While CABE currently has focused on multilingual excellence through its established seals of biliteracy and excellence in place, this cardinal point will be acquiring new focus and direction. For example, we intend to create a system of data dashboards so that our membership and clients have easy access to the data they need to assess their current status and their growth over time.

We are also exploring creating a system of certification that guarantees schools and districts that CABE-recommended consultants and providers have the CABE Seal of Approval and will adhere to the CABE Essentials. This is one way we can more finely craft and guide our chapters in their local work.

Finally, we will be fully engaging our staff in implementing our action plans and in developing their own leadership, and we’ll need to ramp up our budget and fund development in order to support our strategic plan actions.
Creating a positive future begins in human conversation. The simplest and most powerful investment any member of a community or an organization may make in renewal is to begin talking with other people as though the answers mattered.

William Greider
Envisioning Success

1.1 Defining Success
Clarify and communicate to CABE membership and partners the skills, capacities, and dispositions required for English Learners to be fully engaged and successful 21st century learners in school and beyond.

1.2 Communication Tools
Create and put into action a portfolio of communication tools and processes to generate awareness, understanding, and ownership of the CABE Essentials and connected CABE services among our diverse stakeholders and clients.

1.3 Practices & Resources
Identify values-driven, principles-based, and data/research informed practices and resources that significantly increase the capacity of CABE membership and partners to implement the CABE Essentials.

1.4 Professional Development & Public Information Strategy
Design and roll out a professional development and public information strategy for engaging CABE membership and partners in effectively and compellingly understanding, communicating, and enacting the CABE Essentials.
2.1 Professional Development Framework
Develop and disseminate a common professional development framework to develop the highest quality teachers and administrators who are prepared to engage high achieving and joyful 21st century English Learners.

2.2 Professional Development
Provide coherent, comprehensive, and ongoing professional preparation and support programs based on well-defined standards of practice, aligned to CABE’s Professional Development Framework, and designed to create professional learning communities and networks of administrators, teachers, and other staff to implement a powerful vision of excellent teaching for each group of English Learners they serve and support English Learner best practices, research, policies, and materials/resources.

2.3 Designing Success Website
Develop an interactive Designing for Success website to access current and relevant information regarding current research, best practices, demographics, policies, and basic information about English Learners for our diverse stakeholders and clients.

2.4 CABE As Support Provider
Establish a system of differentiated supports available from CABE for schools and districts, where together CABE and clients co-design 21st century learning environments of high intellectual performance for English Learners.

2.5 School District Success Maps
Develop a process for the design of school/district success maps or plans that specify the instructional innovations and integrated services they will provide to English Learners and that clarify the English Learner pathways that they will implement so that from PreK through graduation, English Learners have access to comprehensive, coordinated, articulated instructional programs that result in linguistic, academic, and 21st century success.

2.6 Innovation Cadres
Establish innovation cadres as a safe space to explore in a community of peers new ideas that will push us to the edge of our competency as an organization. Innovation Cadres is a protocol for incubating and chronicling innovations, and ultimately, making an informed determination about what it will take to scale up the innovation and whether the benefit in terms of student engagement, achievement, and 21st century success is worth the cost.
Engaging Our Community for Success

3.1 Family & Community Engagement
Implement strong family and community engagement programs that build leadership capacity and that value and draw upon community funds of knowledge to inform, support, and enhance teaching and learning for English learners so that they graduate college, career, and 21st century ready.

3.2 Making Meaning Visible
Create tools, protocols, and processes to make learning in English Learner contexts (and the teaching that leads to such powerful learning) public and visible to our entire California community.

3.3 Partnerships
Strengthen existing partnerships and establish new partnerships with the California Department of Education, Institutions of Higher Education (IHEs), professional organizations, businesses, and political, civic, and service organizations to deepen understanding of the CABE COMPASS and to identify specific fiscal and programmatic commitments from those partners to support English Learner success within the COMPASS framework.

3.4 Advocacy
Expand our legislative, policy, and legal advocacy efforts in support of dramatically improving family and community engagement and English Learner success.

3.5 Membership
Provide advocacy-oriented leadership to more fully engage and expand our membership in support of English Learner success.
4.1 Multilingual Excellence
Showcase excellence in programs and practices for English Learners to promote multilingualism for all California students and support for multilingualism among parents, educators, and policymakers.

4.2 Data Dashboard
Create a user-friendly data dashboard that promotes transparency and awareness regarding English Learner college, career, and 21st century readiness to both support best practices and create a sense of urgency for change among our parents, members, and education policymakers.

4.3 Chapter Engagement
Design and roll out a professional development strategy for engaging CABE chapters in effectively and compellingly understanding, communicating, and enacting the CABE COMPASS accountability provisions.

4.4 Certification
Create a two-tier CABE certification process that will promote English Learner success and accountability: Tier 1 for school/district leaders, teachers, and parents, and Tier 2 for CABE consultants/mentors.

4.5 Staff Engagement & Leadership
Design and roll out a staff engagement and leadership strategy for engaging CABE staff in effectively and compellingly understanding, communicating, and enacting the CABE COMPASS.

4.6 Budget & Fund Development
Develop multi-year budget and fund development plans to help the staff and board set realistic income goals with respect to the annual budgeting process and implementation of the CABE COMPASS; outline the strategic steps required to reach those goals, as well as board and staff responsibilities in accomplishing the plans; and identify targeted financial and strategic goals necessary to support successful COMPASS implementation.

*Originally from Los Angeles, astronaut Ellen Ochoa first left Earth in July 1991 and became the world’s first Hispanic female astronaut. A mission specialist and flight engineer, she has since logged more than 900 hours in space on four flights, the last in 2002. Dr. Ochoa’s many awards include NASA’s Exceptional Service Medal (1997) and Outstanding Leadership Medal (1995). Besides being an astronaut, researcher, and engineer, Ochoa is a classical flutist. She is the director of the Johnson Space Center (281.483.0123).

This program will be modeled on the Dr. Frank S. Greene Scholars Program, which serves a similar purpose for African American youth.

If you want to bring about a fundamental change in people’s belief and behavior, a change that would persist and serve as an example to others, you need to create a community around them, where these new beliefs could be practiced, expressed, and nurtured.

Malcolm Gladwell
Engaging Our Chapter Leadership with the CABE COMPASS for English Learner Success

Board Priorities

New Development

4.1 Multilingual Excellence (Includes portions of 3.2 Making Learning Visible)
Showcase excellence in programs and practices for English Learners to promote multilingualism for all California students and support for multilingualism among parents, educators, and policymakers. Create tools, protocols, and processes to make learning in English Learner contexts (and the teaching that leads to such powerful learning) public and visible to our entire California community.

4.2 Data Dashboard – Phase 1 Content Development
Create a user-friendly data dashboard that districts can utilize to promote transparency and awareness regarding English Learner college, career, and 21st century readiness to both support best practices and create a sense of urgency for change among our parents, members, and education policymakers.

2.3 Design for Success Website – Content Development
Develop an interactive Designing for Success website to access current and relevant information regarding current research, best practices, demographics, policies, and basic information about English Learners for our diverse stakeholders and clients.

Strengthen & Expand

2.2 Professional Development (Includes 2.1 – PD Framework)
Develop and disseminate a common professional development framework to develop the highest quality teachers and administrators who are prepared to engage high achieving and joyful 21st century English Learners. Based on that Framework, provide coherent, comprehensive, and ongoing professional preparation and support programs based on well-defined standards of practice, aligned to CABE’s Professional Development Framework, and designed to create professional learning communities and networks of administrators, teachers, and other staff to implement a powerful vision of excellent teaching for each group of English Learners they serve and support English Learner best practices, research, policies, and materials/resources.

3.1 Family and Community Engagement
Implement strong family and community engagement programs that build leadership capacity and that value and draw upon community funds of knowledge to inform, support, and enhance teaching and learning for English learners so that they graduate college, career, and 21st century ready.
4.6 Budget & Fund Development
Develop multi-year budget and fund development plans to help the staff and board set realistic income goals with respect to the annual budgeting process and implementation of the CABE COMPASS; outline the strategic steps required to reach those goals, as well as board and staff responsibilities in accomplishing the plans; and identify targeted financial and strategic goals necessary to support successful COMPASS implementation.

Maintain Effort

3.4 Advocacy
Expand our legislative, policy, and legal advocacy efforts in support of dramatically improving family and community engagement and English Learner success.

3.3 Partnerships
Strengthen existing partnerships and establish new partnerships with the California Department of Education, Institutions of Higher Education (IHEs), professional organizations, businesses, and political, civic, and service organizations to deepen understanding of the CABE COMPASS and to identify specific fiscal and programmatic commitments from those partners to support English Learner success within the COMPASS framework.

Rethink/Restructure

3.5 Membership
Provide advocacy-oriented leadership to more fully engage and expand our membership in support of English Learner success.

4.3 Chapters
Design and roll out a professional development strategy for engaging CABE chapters in effectively and compellingly understanding, communicating, and enacting the CABE COMPASS accountability provisions.

2.2 Regional Conferences (2.2.6)
Maintain our regional and annual conference structure with targeted focus on timely and relevant professional development.
If all the rich and all of the church people should send their children to the public schools they would feel bound to concentrate their money on improving these schools until they met the highest ideals.
